## Gives Patients Snow Baths

Photograph of snow rollers at Dr. E. C. Lane's sanitarium, at Evanston, Ill. The sanitarium yard is divided by an eight foot fence. In one section the women deport themselves while the other side is for the use of the men. After rolling in the snow for ten minutes they are given a snow rub down. The patients say that after the first experience, they do not mind the cold, and some of them insist on burying themselves complete. There has been some protest against this practice, but Dr. Lane, who is an Austrian, defends his treatment as being strictly scientific. He said it is recognized by the best European medical authorities as highly effective in treating stomach and nervous troubles.

PERJURY CHARGE  
WILL NOT BE TRIEDThree Indictments Are Nolle  
Prossed Against W. J.  
Power.

Three indictments charging W. J. Power, of Hibbing, Minn., with perjury, were nolle prossed in the 34th district court Thursday morning by district attorney Howe. Mr. Power, accompanied by O. B. Collier, of Duluth, Minn., and other witnesses, from Mexico, arrived in El Paso Wednesday.

The inability of the state to procure witnesses and the conflicting testimony which it is known was to be introduced, was responsible.

The indictments grew out of the mining deal suit of C. B. Bell against J. P. Casey, in which judgment for \$23,500 in favor of Bell was recently affirmed by the court of civil appeals at San Antonio. Power was charged with perjury relative to his statement on the witness stand that his signature to a certain contract dated April 25, 1905, which played an important part in the trial of the case, was a forgery.

Mail subscribers should watch the yellow label pasted on the wrapper or first page of their paper. The date there shows when the subscription expires. Victoria, B. C., Dec. 22.—The date set for the removal of the cues from the heads of many Chinese was December 5 and when the steamer Amyerle left China a few days before that, the edict was generally obeyed. Assuming that nearly 200,000 cues will be cut, the human hair market will be glutted. The prevailing style of hair dressing in the United States calls for much artificial hair, but not nearly so much as is available. Human hair may be woven into cloth, but the fabric is stiff and unyielding.Mayer's

MONDAY TO BE OBSERVED  
THE CHRISTMAS SHOPPERS.  
Christmas is Sunday and Sunday is Christmas. To allow the employees of the banks, public buildings and stores to have a vacation other than their usual Sunday, rest day, the business will be suspended Monday for the greater part of the day. The postoffice will be closed in the afternoon, the stores are all planning to close at noon and the banks will remain closed all day.The Philosophers and the Frog  
Dr. Safford, for many years professor of chemistry in the Nashville College of the University of Nashville, used to tell his students a fable—the moral of which was "prove it." Certain wise men were gathered together to ascertain the explanation of a statement that when two glasses of water of equal weight are balanced on the beams of a balance scale and a frog is then put in one of the vessels the balance remains in the same, thus attempting to prove the assertion that a frog has no weight when immersed in water. Each wise man had his own explanation, and there was much heated argument and discussion. At length one of the wise men said: "But is your statement true? Let's prove it." Of course when it came to proving it, they couldn't.

So when you hear people say that Coca-Cola is injurious, just ask them to prove it. They can't. Nobody can, because it is not injurious. But on the other hand it can be proved that it is not injurious by chemical analysis. Or if you are not a chemist yourself, why not accept the verdict of every competent chemist who ever analyzed it? Emmerich College and University Chemists, Commercial Chemists, Government, State and City Chemists—all have analyzed Coca-Cola and not one has ever been able to find anything injurious in it. The very next time you hear anyone say that Coca-Cola contains deleterious ingredients tell him to write the Coca-Cola Co., Atlanta, Ga., for a free copy of their booklet, "The Truth About Coca-Cola." It means time to write for a copy for yourself—you will find it very interesting.
